Dear Ashleigh

Thank you for your recent communications with me about the capacitor for the pump and agreeing to replace this as a donation – everyone at Naomi House & Jacksplace is really appreciative of your support.

As you may know Naomi House provides a homely environment to children with life-limiting and life-threatening conditions. We provide individualised specialist care and much needed respite for the whole family, enabling them to feel refreshed, rested and supported through the good days, difficult days and last days.

Jacksplace is our hospice for 18–25 year olds and has been specifically designed to meet their needs. This hospice has incorporated many innovative and interesting ideas that our young people have asked for, whilst giving them the independence, privacy and dignity they crave.

Each year we need to raise £8 million to keep the doors of Naomi House & Jacksplace open, only around 15% of this comes from Government funding. Incredibly the rest is generously given by people and businesses in the community and means that we can continue to provide care and support when children and their families need it most.

Once again thank you for your support, we are most grateful for the donation.

Kindest regards

Marcus Simpson
Maintenance Technician
