

Cinderella in a Fairytale Setting

Once upon a time Matt and Harriet, inspired by the idyllic landscape they live in, designed, and created this amazing tree house on a remote Herefordshire wooded hilltop.

Matt, an extraordinarily visionary and talented carpenter designed and created the building, incorporating the trees and landscape into his design. His partner Harriet is an equally gifted interior designer who has furnished the interior with exquisite style and attention to detail.

Together they have created **The Quist**, a luxurious treetop lodge.

When it came to the practical problem of providing WC facilities in a way that matched their vision to be at one with nature, the Cinderella Freedom was the ideal solution. It emits no smells or fossil fuel fumes, just clean air, with the only residue sterile inert ash.

See more of The Quist at Brinsop Treehouses and just maybe, be tempted to stay for your own secluded **happy ever after**.....
